

Our Services:

Returns Management

The Rockpoint returns operation streamlines the process of getting your inventory back into stock and saleable. We perform multiple steps to ensure that the integrity of the product matches your requirement. Full accounting of all destroyed and back to stock inventory are supplied to you so your accounting department can match up the necessary vendor credits.

Returns don't have to be a drain on your bottom line. At Rockpoint Logistics, we handle returns quickly and efficiently, with benefits like fast cash processing, thorough product cleanup and refurbishing, and seamless information exchange. By giving you greater visibility and control over your returns, we help you manage your inventory as profitably and effectively as possible.

We want to hear from you. If you'd like to learn more about our returns management services, find out how we can transform your supply chain or get a quote, get in touch today.
